

# VITRO S5

When it comes to coffee, **more is always more.**

The **VITRO S5** is a large capacity coffee machine, ideal for preparing a wide range of the highest quality hot drinks.

A stand-alone solution with 12 coffee and hot beverage options and the ability to integrate different payment methods directly into the machine, ideal for high volume, unattended environments.

#### Easy to use selection panel

The 12 option panel offers a wide variety of high-quality coffees while Distance Selection technology allows drinks to be selected without touching the machine.

#### High autonomy

With a 4.5 lb bean hopper, four containers for chocolate or other soluble ingredients and a waste drawer with a capacity of up to 220 coffees, the VITRO S5 provides continuous service.

#### Illuminated dispensing area

The illuminated product dispensing area enhances the user experience and facilitates a perfect presentation of the beverages, while the ambient lighting provides premium aesthetics.

#### Independent hot water spout

For the preparation of tea and other delicious infusions. The separate spout prevents flavour contamination and guarantees a pleasant drinking experience.

Optional

Integrated cashless payment

For stand-alone operation, the VITRO S5 allows the integration of a cashless system.

Variable brewing unit

The variable brewing unit enables two different brewing methods in a single machine: espresso and filter coffee. Furthermore, the coffee strength and size can be adjusted thereby enabling a perfect customization of each beverage.

Accessories adapted to your business model

With a wide range of accessories, the Vitro S5 can be adapted to suit any business model, with different payment modules, base cabinets and coolers available to complement the machine.
