

VITRO X5

Exceptional Coffee, Seamless Convenience

The **VITRO X5** offers a menu of high-quality espresso and fresh brew coffee that satisfies even the most demanding tastes and effortlessly increases consumer options.

A fantastic stand-alone coffee machine for high-volume coffee corners, it combines high capacity, a large touch display for intuitive selection, and versatile bean and soluble options to ensure variety and customization.

Easy to use selection panel

Choose between a 15.6" touchscreen that allows easy selection and customization of coffee specialties or a capacitive touchscreen with 20 selections.

Variable brewing unit

The variable brewing unit enables two different brewing methods in a single machine: espresso and fresh brew coffee. Furthermore, the coffee strength and size can be adjusted thereby enabling a perfect customization of each beverage.

High autonomy

With two 4.85 lb bean hoppers, three containers for chocolate or other soluble ingredients and a waste drawer with a capacity of up to 220 coffees, the **VITRO X5** provides continuous service.

Illuminated dispensing area

The illuminated product dispensing area enhances the user experience and facilitates a perfect presentation of the beverages, while the ambient lighting provides premium aesthetics.

Optional

Integrated cashless payment

For stand-alone operation, the Vitro X5 allows the integration of a cashless system.

Cup sensor and cup size sensor

Sensors prevent unintentional dispensing, minimising the risk of unnecessary spillage. In addition, the I-Detect cup size sensor offers the advantage of automatically pre-selecting the appropriate beverage type or volume according to the cup used.

Accessories adapted to your business model

With a wide range of accessories, the Vitro X5 can be adapted to suit any business model, with different payment modules, base cabinets and coolers available to complement the machine.
